

Subject: Available Resources from DPH

Dear Colleagues,

The Massachusetts Department of Public Health (DPH), through its Office of Preparedness and Emergency Management (OPEM), is making at-home COVID-19 and influenza A/B test kits available to eligible organizations across the Commonwealth. The test kits should be used in accordance with applicable U.S. Food and Drug Administration requirements, product labeling, and manufacturer instructions.

DPH is also making expired personal protective equipment (PPE) available for training and other non-clinical purposes. Expired PPE must not be used for patient care, occupational protection, emergency response, or any activity requiring certified protective performance.

Requests can be submitted [via this link](#). Although the link name references COVID-19 test kits, the form is used for multiple types of resource requests. Please select the appropriate organization type and follow the prompts.

All items are subject to availability and are available for *pickup only* from a DPH location in Franklin MA. Shipping and delivery are not available.

For assistance or questions, please contact dph.resource.request@mass.gov.

Sincerely,

Resource Unit

Office of Preparedness and Emergency Management
